Customizable Purchasing Models on our eBook Platform

Taylor & Francis Group
an **informa** business

www.taylorfrancis.com

Solutions can be tailored for institutions of all sizes. Our team can share usage and denial reports and other insights that support data-driven decision-making, helping you maximize your purchasing power.

Evidence-Based Acquisition

Helping library budgets go further by providing access to more ebooks, more cost effective than traditional purchasing models

Title-by-Title Selection

Curate your perfect collection by choosing titles from reading lists and priority areas of research.

Perpetual Access

All of our books are available for perpetual purchases, and 96% are DRM-Free, helping you build a sustainable collection with long term value.

Subscription Packages

Increase the breadth of your content quickly through subscription packages to subject and interdisciplinary collections. These can be combined with access to journal content for maximum value.
